# ABOUT US.

USHA EV is a leading electric vehicle manufacturing / assembling company in India, committed to delivering affordable, reliable, and eco-friendly mobility solutions. Since its inception in 2009, the company has played a key role in transforming the electric mobility landscape.

With a strong focus on innovation, quality, and customer satisfaction, USHA EV has built a reputation for manufacturing /assembling high-performance electric vehicles designed for Indian roads and users.

- Established: 2009
- Incorporated: 2018
- Industry: Electric Vehicles Manufacturing / assembling
- Location: Nardana, Dhule, Maharashtra / Dhankot, Gurugram, Haryana
- Presence: 11+ States

## Network:

- 400+ Primary Dealers
- 150+ Secondary Dealers
- 1000+ Touchpoints

USHA EV is among the fastest-growing EV companies in India with a strong nationwide presence.

# Our Strengths

- Advanced Manufacturing / assembling Facility
- Dedicated R&D Team
- Strong Dealer / vendor Network
- Customer - Centric Approach
- Continuous Product Development

# Our USP

- Original & OEM Spare Parts Availability
- Long-lasting battery & performance
- Great mileage & low running cost
- Strong after-sales support
- Reliable and durable vehicles

USHA - eV<sup>TM</sup>  
E-Vehicle

## What is E-Rickshaw / E-Auto

An E-Rickshaw / E-Auto is a battery-operated vehicle designed for short-distance transportation. It is:

- Eco-friendly (zero emission)
- Cost-effective
- Low maintenance
- Easy to operate

Electric vehicles significantly reduce fuel costs and pollution.

## Infrastructure

USHA EV operates a state-of-the-art manufacturing / assembling facility in Nardana, Dhule / Dhankot, Haryana equipped with modern machinery and strict quality control systems.

Key Highlights:

- Advanced production lines
- Quality inspection units
- Skilled workforce
- Continuous R&D upgrades

# Product Portfolio

USHA EV offers a complete range of electric vehicles:

## High-Speed EVs

**USHA F15 ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B7 Prime**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B6+ ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA THUNDER ELECTRIC**  
 (High Speed / Low Speed)  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B7+ ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B7 ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

# Low-Speed EVs

**USHA B6I ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B7+ ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

**USHA B7 ELECTRIC**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

# USHA E-BIKE

**USHA E-BIKE**  
 "200/100 km/charge - Lithium Electric" ★★  
 Battery Configuration  
 60/51, 60/64, 60/84, 72/51, 72/64, 72/84

USHA - eV<sup>TM</sup>  
E-Vehicle

## High-Speed Vehicle

Designed for performance and efficiency:

- Faster mobility
- Strong motor capacity
- Advanced control system
- Ideal for commercial and urban usage

## Low-Speed Vehicles

- Safe and economical
- Ideal for short-distance travel
- Low maintenance
- Perfect for local transportation

## E-Bike Features

- Detachable battery
- Fast charging (3-4 hours)
- Regenerative braking
- Smart features & controls

**USHA - eV**  
**E-Vehicle**

## E-Scooter Features

- Lightweight design
- Eco-friendly commuting
- Cost-effective travel

## E-Auto L3/L5

USHA E-Auto:

- Full metal body
- Weather-resistant roof
- Optional GPS & telematics
- Warranty up to 3 year / 50,000 KM

Comfortable and durable for passenger transport.

## E-Cart Models (Loader) (L3/L5)

Small Model:

- Speed: Up to 25 km/h
- Range: 80-100 km
- Motor: 1000W / 1500W / 2000W / 2400W / 3000W
- Strong load capacity / 600kg, 1000kg, 1500kg, 2000kg

E-Vehicle

## Big Model

- Heavy-duty performance
- Ideal for commercial logistics
- High durability

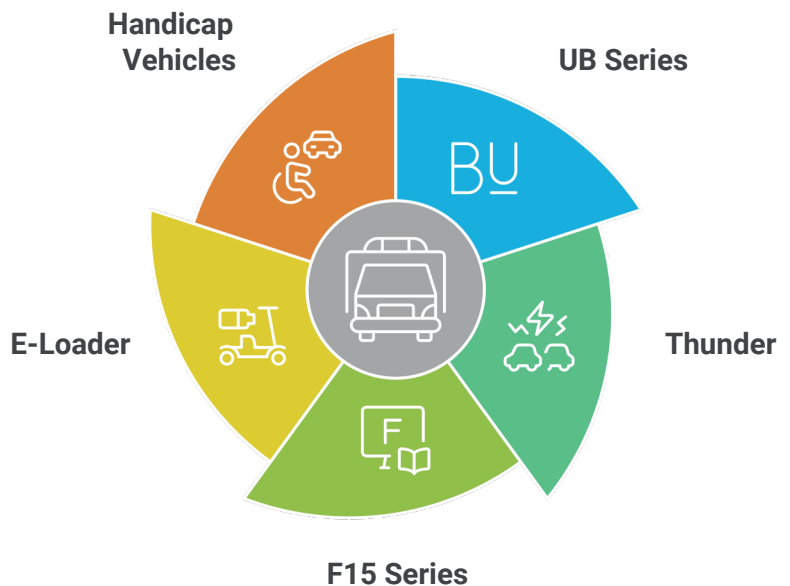

## Special Vehicles & Models

Popular Models:

- UB6, UB7, UB7+, UB7 (Pm), UB6I, UB6 (Pm)
- Thunder
- F15, F15 (P)
- E-Loader
- Handicap Vehicles

Also offers:

- Special configuration vehicles
- Customized EV solutions
